TO WHOM IT MAY CONCERN

Hello,

I am a passionate frontend engineer with 7 years of experience in writing performant and organised code. My areas of expertise are HTML5, CSS, JavaScript, Node JS and their related frameworks.

I am currently working with Juniper Networks, Bangalore, India and responsible for handling the frontend architecture of one of their key products. I believe that the skills and experiences I have gained makes me an ideal candidate for the job of JavaScript Developer / Full Stack Engineer / Frontend Engineer.

I am a citizen of India and hold a permanent resident visa of Australia. I am actively seeking opportunities worldwide that can widen my horizons. My notice period in current company is one month. I look forward to speaking with you and discussing my qualifications in more detail.

Sincerely,

Rachit Garg
